

15.3 Supporting Land Ecosystems through Action

15.3.5 Collaborate with The Local Community

USU is very active in collaborating with the community in efforts to maintain shared land ecosystems. This is implemented in various forms of community service activities which are coordinated through USU's Community Service Institute (LPPM). Apart from that, in implementing the MBKM program, USU also has Thematic Real Work Lecture (KKN) activities, where students will live in the village to help the community, including providing training and counselling on how to protect the environment and maintain the shared land ecosystem.

Evidence's

- Collaborate with the local community, e.g. through partnerships, in efforts to maintain shared land ecosystems
