

### 3.3 Collaborations and health services

#### 3.3.3 Does your university as a body share sports facilities with the local community, for instance with local schools or with the general public?

USU has a total area of 116 ha. Most of the area are public open space with trees, parks, sports facilities, and relatively less crowded vehicles on Campus. These conditions make USU a favorite place for jogging and sports such as football, cycling, tennis, volleyball, basketball, badminton, martial arts, and archery. These facilities are accessible free of charge for USU students in sports clubs with appointment and booking in advance. For use by the public or other institutions/communities, booking has to be done in advance, and there is a decent maintenance fee that has to be paid to the university. The university regulates the price rate and procedure for using these facilities. In some sports branch such as archery, USU provides Junior Archery Training Center for school students. The enrolment for the club is basically free, with voluntary donations.

## Evidence(s) Sports Facilities For Local Community

University : Universitas Sumatera Utara

Country : Indonesia
