

Universitas Sumatera Utara

Sustainable Investment Policy

Introduction

Indonesia has a strong commitment on reducing greenhouse gas emissions as stated in the Intended Nationally Determined Contributions (INDC). The country has set ambitious goals for sustainability related to production and consumption of food, water, and energy. These goals will be achieved by supporting empowerment and capacity building, improved provision of basic services in health and education, technological innovation, and sustainable natural resource management, in compliance with principles of good governance and broader constituencies strengthening. In order to support the Government of Indonesia climate target, Universitas Sumatera Utara has developed a sustainable investment policy. The policy is designated to lead Universitas Sumatera Utara to do sustainable investment that embracing environmental and ambitions to joint the international communities in the sustainable manner.

The Investment Strategies

- Investments that are collaborated with any government bodies should consider all of sustainable indicator such as emission reductions.
- The development of new building must meet the green building criteria issued by the government
